TECHNICAL SKILLS

- React, Node.js, .NET, C#, Python, Java
- JavaScript, PHP
- HTML, CSS
- PostgreSQL, SQL, MongoDB
- Git, Figma, WordPress
- Prisma ORM

SKILLS

- Time Management
- Teamwork
- Communication
- Adaptability
- Creativity

EXTRA CURRICULAR

- Present - Member of IEEE CS club of IIT
- Present - Volunteer of IEEE CIS Membership Development team of IIT
- Industry Outreach Team volunteer of IET of IIT
- Member of Rotaract Club of IIT

PROFILE

A dedicated Computer Science undergraduate at the University of Westminster with a year of industry experience as a Software Developer Intern. Passionate about full-stack development and building real-world software solutions. A strong team player with a problem-solving mindset, committed to continuous learning and professional growth.

EXPERIENCE

Sensus Hub Pvt Ltd : Boralesgamuwa

June 2025 - June 2026

Software Developer - Intern

- Implemented modules for an ERP system developed for a three wheel manufacturing and distribution business Stock Adjustments, System Configuration, Product Category Management, Material/MTN integration, and piecewise/percentage-wise invoice creation; prepared SRS, BRD, ERD, and workflow documentation.
- Led end-to-end development of the Laundry POS System (React, Node.js, PostgreSQL, Prisma ORM), implementing cashier panel, invoice generation, transaction handling, admin dashboard, service management, and sales reporting; integrated JWT authentication, secured API endpoints, and implemented receipt printer hardware communication.
- Built the Restaurant POS System frontend and backend including dashboard, menu, customer management, and reports; conducted full testing and bug fixing.
- Improved React frontend components and performed full system testing for the Tyre POS System, validating sales workflows and invoice generation.
- Built admin panel backends for Aloysius College Portal, Richmond College OBA System, and Sanghamitta College Admin Panel (React, Node.js, PostgreSQL, Prisma ORM) for dynamic management of notices, galleries and events.
- Developed frontend and backend for an E-Commerce System covering product management, categories, coupon handling, and order processing for admin/seller and customer panels.
- Designed and developed Salon A9 and PSI Printing websites using WordPress and Elementor, handling layout, theme customisation, and responsiveness.
- Managed SQL database for an international school - removing duplicate student records and optimizing query performance through indexing
- Designed wireframes and UI layouts using Figma.

CERTIFICATIONS

- Hult Prize OnCampus participation Certificate
- Certification on Spring boot essential training (Linkedin Learning)

LANGUAGES

- English
- Sinhala

EDUCATION

University of Westminster **2024 – Present**
BSc Computer Science

Southlands College Galle **2020 – 2022**
GCE A/L
Achieved 3C's in Physics, Chemistry and Combined Mathematics

Southlands College Galle **2017 – 2019**
GCE O/L
Achieved 6A'S and 3B's

UNIVERSITY PROJECTS

CoastalCanopy.lk – Mangrove Monitoring
Platform with Machine Learning **Sept 2024–March 2024**

Web application aimed at monitoring and restoring mangroves in Sri Lanka. Integrates AI based analysis , community reporting to promote sustainable conservation and awareness of mangroves (React, Node.js, MongoDB, YOLOv8).

Estate Agent App **December 2024**
Designed a Estate Agent website using React, CSS and JSON with media queries for responsiveness.

Ticketing System **October 2024**
Developed a ticketing system for Object Oriented programming module using Java OOP

Portfolio Website **May 2024**
Designed a portfolio website using HTML, CSS and media queries for web responsiveness.

Student Activity Management System **April 2024**
Developed a student activity management system for Software Development II module using Java, JavaFX individually.

Personal Finance Tracker **March 2024**
Developed a Personal Finance tracker system individually using Python , Tkinter, GUI for Software Development I module.
